“ Dale's countless efforts over the past 9 months to care for Darlene in her declining health prepared her for her sudden diagnosis of cancer in June. In July, Dale knew what was to come and she left us knowing Darlene would need help & guidance in her passing. God had a plan, Dale knew. It hurts but I hope Dale & Darlene are enjoying their new life together, again.

“ Darlene touched so many life's. When we were out shopping or having lunch or getting our hair cut she would say " I know you, you come to my party" and the people would fall in love with her. She always want to give everyone a hug. She had more love in her heart than anyone I know. I think the best time of her life was when Jorge Bacardi took her for a ride on his big Fountain race boat when we were in Morehead City for the boat Poker Run. He had the boat going at 98 MPH. And she loved it. She had the biggest smile on her face and when she got off the boat she said "I do it again"
Darlene you bought so much love and joy to Bobs and my life. We are lost with out you.
Be safe my sweet Princess Darlene. Bob and I love you to the moon and back.
With much love and a broken heart.
Your bestest sister Debbie and your bestest buddy Bob.

“ After many months of doctors, hospitals and medical care facilities my sister Darlene passed away this morning to be with my sister Dale who passed away in July. Darlene's life touched many medical professionals over the past year. Her last 24 hours in the hospital exposed the family to many nurses, doctors & specialist who cared for and/or heard about her, stopping by Darlene's room not only to see her but to let family know just how beautiful and special Darlene was to them. When she left us this morning we knew there is no more pain and the beginning to a better life. At 57 & down syndrome Darlene was bigger than life.
Love & Miss You Darlene
Your Brother Albert
