“ I sat next to Ted for a while when I was in Telepresence TAC. Loved hearing about his memories of working for the IT for the coal companies..Was really interesting to hear of the cool stuff they did. Ted was always there to help out and was super sharp guy with a great attitude. I had tremendous respect for Ted and know he made a difference with his life and too all the people around him. He will always be a great example to others that knew him. RIP Ted

“ Hello to the Family and Friends of Ted,

As one of dozen's of people at Cisco who've worked side-by-side with Ted over the last 11 years, I wanted to send my deepest heartfelt Condolences to all of you.

Ted was such an integral part of the Telepresence team here at Cisco from the start of it's inception, and a huge part of my day-to-day life at work. It's almost impossible to imagine him not being here, but he brought such professionalism and joy to our careers, that I wanted to add my voice to your tribute as you celebrate him and his life.

What an incredible individual, warm and impossible to replace, with an infectious and quick-to-laugh personality. Ted is missed now, and will forever be missed.

Again, sending my deepest heartfelt Condolences to all of you.
